Too much space between letters on the "Return to Store" button

AttachAdd a child issueLink issue

Description

After adding any product to the cart and then removing it (the cart must be empty), there is too much space on the "Return to Store" button between the letters "R" and "E" compared to the spaces between the remaining letters in the sentence.

Steps to reproduce:

1. Open the page Find Bugs

2. Add any product to the cart - "Add to cart"

3. Click the button - "Checkout now"

4. Remove this product from the cart (the cart must be empty).

Expected result:

The space between the letters "R" and "E" on the "Return to store" button is the same as between the other letters.

Actual result:

There is more space between the letters "R" and "E" on the "Return to store" button than between the other letters.

Attachments:

There are no items in your cart.
